FLOWERS FOR SPRING, 1898.

THE BEAUTIFUL WEEPING LANTANA.

The most beautiful basket plant ever grown.

Record of one plant—Planted in an ordinary nail keg in May, was in flower all the time till August, when it had 500 clusters of flowers; continued in full flower (removed to a greenhouse in October) to December, when 350 clusters were counted. At this time every young branch was cut off to propagate, but on January 14 it had 100 beautiful new clusters. The plant has a most graceful drooping habit, grows rapidly, and blooms persistently winter and summer, producing a cluster of flowers of each leaf. Color most delicate, clear, brilliant, rosy lilac; foliage bright dark green. Does equally well in winter or summer. 15c. each, 2 for 25c.

ORANGE-FLOWERED—A very beautiful variety, with elegant single flowers, and certain to bloom early in the season. The exquisite pure snowy-white flowers rival orange blossoms in sweetness. 5 cents each, 7 for 25 cents.

→ HOW TO PLANT. ←

Set out about the time you do Coleus, in rich, warm soil. Firm the soil around the bottom of the bulb with your hand, and have the top of the bulb just covered with dirt. When the flowers begin to open, if you take the plant up and put it in a pot or box, and place it on the piazza or out of the sun and storms, all the flowers will open very white and full.

LITTLE GEM CALLA.

LITTLE GEM CALLA.

Seldom grows over 10 in. high, yet bears many sweet flowers of good size. An excellent plant. 15c., 2 for 25c.

SPOTTED CALLA.

White flowers, the leaves covered with transparent white spots. Effective window plant. Distinct. 10c., 3 for 25c.

NEW YELLOW CALLA.

Golden yellow, jet black centre; very rare and expensive bulbs. Treat same as the spotted Calla. Blooms winter and summer. 50c. each, extra large bulbs, 75c.

PERUVIAN LILY.

Gorgeous flowering plants; flowers produced in great numbers; all shades and colors, and most elegantly mottled with purple, crimson, rose, blue, yellow, green, appearing, when in bloom, like a thousand butterflies. Hardy with slight protection. 15c. 2 for 25c.

SCARLET

FREEZIA.

In bloom the whole summer; dense clusters of brilliant crimson flowers. The three lower petals marked with a black spot. 5c., 4 for 15c., 10 for 25c.

MONTBRETIA CROCASMÆFLORA.

SUMMER SCARLET FREEZIA.

Bulbs, good kinds, good quality, for little money.

MILLA BIFLORA (Frost Work).

The flowers have the oddest and most beautiful appearance imaginable. They appear like the most beautiful wax work, only enlivened by a living sparkle. The centre is lovely, the anthers are a delicate lemon yellow; the pistil is curiously carved, and usually covered with honeydew. The fragrance is delightful. Place a stalk in water and the flowers will all open. We have seen eleven stalks shoot up successively from one bulb. The bulbs will flower profusely with great certainty. 5c. each, 3 for 10c., 10 for 25c., \$2.10 per 100.

BESSERA ELEGANS (Coral Drops).

While this is nothing like Milla Biflora in appearance, we are glad to say that it is of equal value. It will bloom shortly after being planted in the open ground, and will keep on blooming until frost. We have frequently had seven successive flower spikes from one bulb in a season—a thing not equalled by any other flowering bulb we know of. In point of beauty, it is exquisite. The flower stems are from one to two feet high, supporting a dozen or more bell-shaped flowers of a bright coral scarlet, with white cups and dark blue anthers. The foliage is thin and rush-like, 10 to 12 inches long. Like the Milla, the blooms will last many days when cut. 5c. each, 3 for 10c., 10 for 25c., \$2.10 per 100 Bulbs.

CYCLOBOTHTRA FLAVA (Golden Shell).

The cup is golden yellow, with fine black dots in the petals. The three colors contrast most beautifully together. A few sprays of each, when placed together, form a cluster heretofore unseen and unattainable in the way of flowering bulbs. A subtle fragrance pervades the flower. 5c. each, 3 for 10c., 10 for 25c., \$2.10 per 100 Bulbs.

Centaurea Marguerite.

A very handsome plant about 18 in. high, and has large, pure white flowers of the sweetest fragrance. Produced on long, stiff stems, the flowers are most admirably adapted for bouquets, vases etc.; flowers keep for a week after being cut. It is very easily grown. Pkt. 40 seeds, **7c.** Novelty.

Washington Filifera Palm.

This stately plant grows rapidly from seed and in a short time makes one of the most desirable house plants we have. Pkt **10c.**, 3 for **25c.**
Plants **15c.** each, 2 for **25c.**

CHINESE LANTERN PLANT.

Physalis Francheti, the
Giant Winter Cherry.

This singularly handsome New Chinese Plant; recently introduced, is as easily grown from seed as a Tomato, but is perfectly hardy outside over winter. It blooms early, produces the same season a large number of **balloon-like husks**, 3 to 3½ inches across. At first these are a **bright green**, then **light to bright yellow**, then **orange and scarlet**. They greatly resemble, in this last stage, **miniature Chinese lanterns when lighted**. The effect of these brilliant husks among the green foliage is very enticing. The harmony of color—pale and dark green, sulphur, ochre, orange and scarlet—is most striking. The branches, covered with husks, are used with great effect as **parlor ornaments**, as they remain **bright and fresh looking for over a year**. As a **Christmas Tree Decoration**, nothing could be more unique or attractive. They are very handsome when arranged in tall vases together with dried grasses. The elegant scarlet balloon-like husks make an unusual appearance. In addition to its decorative qualities, the plant can be made **highly profitable**, as the husks contain cherry-like fruit, more than an inch across, which can be used in many ways as **table delicacies**. They can be eaten raw, but are most delicious made into a **sauce or prepared as candied fruit**. In fact, the confectioners of Paris could not obtain a sufficient supply for their use in making candied and sugared fruit for bonbons. There is no doubt that these fruits will be bought in large quantities in our local markets and by city confectioners, as they remain fresh for many weeks and can be shipped for long distances without fear of loss, unlike so many small fruits grown at present. Price, pkt. of 25 Seeds **5c.**; 4 pkts. for **15c.** Plants started in Pots, **10c.** each; 6 for **50c.**

FAIRY ROSES FROM SEED. New race; **hardy** perennial Dwarf everblooming sweet scented roses from seed. Sow seed in March, and these little midgets will bloom in the open ground in May and continue in flower until frost. For beds and borders they are charming. In pots they are covered with clusters of lovely pink flowers. Pkt. 25 seeds **10c.**; 3 pkts. **25c.**

SWAINSONIA WHITE.

Swainsonia White

This plant has been grown extensively the last four or five years by the florists as a cut flower, in fact, nothing is more beautiful than the graceful sprays loaded from tip to base with large pure white waxy sweet-pea-like flowers ensconced among the beautiful green acacia-like foliage. The plant is easy to grow, begins to flower when very small, and is in flower nearly the year around, for winter or summer, inside or out, it is at home. Grows easily and quick from seed. Offered by me for the first time. **Seed of the White**, pkt. 10c

Swainsonia Dark Red

New. Identical to the white, only flowers are **dark red**. **Seed**, pkt. 10 cents.

PLANTS of either kind 15 cents each, 2 for 25 cents.

Golden Yellow Sweet Pea

and other names, will no doubt be given to this very beautiful yellow-flowering plant. Dwarf, flowers produced in dense clusters, are certainly like sweet peas in form, and of a brilliant golden-yellow, more vividly set off with a blotch of maroon on the wing, but the odor of the sweet pea is not apparent. It is a most delightful plant, belonging to the pea family, blooming early and long like them, and in the utmost profusion. A field of plants is a perfect sheet of gold. A bunch of these flowers placed in water or mingled with sweet peas form a rich effect and they are very long lasting. As a pot plant, nothing could be more beautiful, and being an annual it commences to bloom very soon.

Pkt. 10 cents, 3 for 25 cents.
